Ah receptor 557
Air
industrial pollution, Nigeria 269
methyl bromide in soil 695
Ammonia, toxicity to *Ceriodaphnia* 116
Antimony, effects on tilapia larvae 129
Apoptosis, induction by DDT 216
Aroclor, 1260 and *in vitro* fertilization 470
Arsenic
effect on pelican hematocytes 239
methylation and developmental effects 231
Atrazine, effects on tadpoles 154

Benzaldehyde, partitioning properties 1
Benomyl, in sesame seed 716
Bioassay
Ah receptor 557
conductivity and fish 645
Daphnia growth with image analysis 355
esterases as biomarkers for OP exposure 564
fonofos and wild birds 448
for PCB in packaging materials 8
improved Daphnia control survival 116
Mfu-galactoside activity in trout RBC 787
molecular connnectivity and toxicity 591
pesticide exposure and rodent capture 440
sennosides A and B 317
soil water phosphorus 325
Bioremediation
tracking with microtox 419
chlorine removal from pulp 15
Bisphenol, estrogenic effects in *Daphnia* 143
Bolero, effect on gill apparatus 162
Bromide, ion in soil after methyl bromide 695
Bromobenzene, liver impairment in mice 22

Cadmium
barnacle as biomonitor 608
effect on K-ATPase of crab 629
in beetles 51
in deer and pigs 731
in sewage sludge soil 347
mitochondrial respiration in rat 31
response of radish plants 44
uptake, metallothionein in carp 794
Captan, removal from human skin 194

Carbofuran, persistence and mineralization 709
Carbon monoxide, poisoning of bus drivers, Iran 210
Cesium, chelating agents in removal from mice 289
Chlordane in paddlefish gonad 650
Chlorpyrifos
effects on tadpoles 154
toxicity to *Artemia* 779
toxicity to *Daphnia* 433
Cholinesterase as biomarker 564
Chromium
effect on antioxidant enzymes 384
embryotoxic and teratogenic effects, chicken 281
in mink and otter liver 600
potassium chromate toxicity to copepod 391
CO, poisoning of bus drivers, Iran 210
Copper
effect on clam 397
in *Sinapis alba* 763
oxidative stress 623
uptake and excretion in crayfish 65

DDD, in bald eagle eggs 247
DDE
in bald eagle eggs 247
in birds after skin removal 658
DDT
apoptosis induction, rat 216
in birds after skin removal 658
Diazinon, residues in lagoon, Iran 477
Dibenzofurans, Ah receptor 557
Dieldrin, in birds after skin removal 658
Dioxin, TCDD levels in chicken 664

EDU, protection against ozone 188
Effluent
chlorine removal from pulp 15
pulp effluent toxicity to phagocytes 747
pulp mills, New Zealand 339
toxicity of pulp mill bleach 739
Estradiol
17β toxicity to trout 519
disruption of urchin embryogenesis 577
Estrogen
estradiol 17β toxicity to trout 519
estradiol and urchin embryogenesis 577
2, 3, 7, 8 - TCDD antiestrogenic effects 462
Ethylene diurea, protection against ozone 188

Exposure
airblast applicators and loaders 455
captan removal from human skin 194
human Hg exposure and gold mining 202
methyl bromide in soil 695
pesticides in sesame 716
pesticides in water, Greece 255
radium in water, Michigan, USA 723
sennoside A and B in tea 317
tires, pesticides and children 684
vanadium in cigarettes 276
vinyl chloride and lymphocytocis 583

Fluorosis, in humans, India 297
Fonofos, bioassay with birds 448
Furadan, blood response of pigeon 297

Gold, Hg in fish, Colombia 182

HAH, Ah receptor 557
Heavy Metal
antimony chloride effects on tilapia 129
Ar methylation and developmental effects 231
Ar, Se, Hg effects on pelican hematocytes 239
barnacles as monitor 608
Cd and mitochondrial respiration 31
Cd and Pb in deer and pigs, Spain 731
Cd and Zn in beetles 51
Cd effect on K-ATPase of crab 629
Cd uptake, metallothionein in carp 794
Cd, Zn, Mn in sewage sludge soil 347
Cesium removal by chelation 289
Cr effect on antioxidant enzymes 384
Cr effects in chicken 281
Cu effect on clam 397
Cu oxidative stress 623
Cu uptake and excretion in crayfish 65
Hg age specific toxicity in nematode 149
Hg and Se in dolphins and turtles 541
Hg demethylation 690
Hg exposure of humans, Amazon 202
Hg in fish from goldfields, Colombia 182
Hg in lagoon sediment, Brazil 57
in mink and otter, Canada 600
indium chloride effects on tilapia 123
in *Sinapis alba* 763
in wastewater, China 261
lobster size, Kuwait 175

Heavy Metal (cont.)
methyl mercury effects on tadpoles 154
upstream, downstream in mink and otter 600
methyl mercury toxicity to minnow cells 527
MFO in fish 378
Pb uptake by mustard plants 38
reproductive success of crabs 548
response of radish plants to Cd and Pb 44
sediments, Korea 505
sorbtion by aquatic plants, Taiwan 497
vanadium in cigarettes 276
Herbicide, exposure from tires 684
Human
CO poisoning of bus drivers, Iran 210
fluorosis, India 303
organochlorine pesticides in fat 311
pesticide exposure from tires 684
protective clothing 455
removal of captan from skin 194
sennoside A and B in tea 317

Indium, effect on tilapia larvae 123
Indole, toxicity to *Photobacterium* prediction 591

Lead
barnacle as biomonitor 608
in deer and pigs, Spain 731
in mink kidneys 600
in sediment, Mexico 616
uptake by mustard plants 38
response of radish plants 44
Lindane, effect on clam 397

Malnutrition, tin induced pregnancy failure 224
Mancozeb, in sesame seed 716
Manganese
in sewage sludge soil 347
in *Sinapis alba* 763
Mercury
age specific toxicity in nematode 149
demethylation 690
effect on pelican hematocytes 239
in dolphin and turtles, Italy 541
in fish from goldfields 182
in fish from goldmining 202
in lagoon sediment, Brazil 57
in mink kidneys 600
Metalaxyl, in sesame seed 716

Methanogens, Hg demethylation 690
Methoxychlor, toxicity in rainbow trout 519
Methyl Bromide, in soil after fumigation 695
Methyl Mercury
effects on tadpoles 154
in dolphins and turtles 541
toxicity to minnow cells 527
Methyl Parathion, treated prey and predator population 135
Methyl tert - Butyl ether, in private wells, NY, USA 484
METIER, chlorpyrifos toxicity to *Daphnia* 433
MFO, petroleum effect in flounder 771
Molecular Connectivity, toxicity and water solubility prediction 591
Molinate, effects on phytoplankton 534
Molybdenum, in *Sinapis alba* 763
MSMA, effects on tadpoles 154
MTBE, in private wells, NY, USA 484

Naphthalene, use by natural bacteria 370
Naphthoquinone, structure-toxicity to *Tetrahymena* 405
Nickel, in *Sinapis alba* 763
Nitrite, cell proliferation, polyamine in mice 801
Nonylphenol Polyethoxylate, degradation in water 489

Organochlorine
estimation after skin removal, birds 658
in humans, Turkey 311
in sediment, Mexico 80
PCB and chlordane in paddlefish gonad 650
PCB partitioning with organic matter 333
TCDD tissue levels in chicken 664
vinyl chloride and lymphocytosis 583
Organophosphorus
furadan blood response in pigeon 297
methylparathion prey and predator population 135
pesticide exposure and rodent capture rate 440

PAH
in limpet, Canary Islands 72
in sediment, Mexico 80
toxicity to crustacea 637
PCB
in bald eagle eggs 247
in packaging materials 8
in paddlefish gonad 650
partitioning with organic matter 333
PCDD, Ah receptor 557
Pentachlorophenol, effects on microorganisms 108
Petroleum, sensitivity of ten aquatic species 102

Phenol
estrogenic effects of bisphenol, *Daphnia* 143
pentachlorophenol effects on microorganisms 108
Phloxine B, dissipation, Hawaii, USA 426
Phorate, persistence and mineralization 709
Plutonium, sediment toxicity, Hanford site, USA 755
Potassium, chromate toxicity to copepod 391
Propanil, effect on nontarget aquatic organisms 169
Protective clothing, airblast applicators and loaders 455

Quantum Chemistry, toxicity and solubility prediction 591

Radium, in water, Michigan, USA 723

Sediment
effects on fish, Zambia 96
effects on parasite fauna, Canada 88
Hg in lagoon, Brazil 57
metal content, Mexico 616
PAH and organochlorines, Mexico 80
toxicity, Hanford site, USA 755
toxicity to amphipod, Chile 363
toxicity of PAH to crustacea 637
Selenium
effect on pelican hematocytes 239
in dolphins and turtles 541
Sulcotrione, metabolism in crops 669
Sulfidogens, Hg demethylation 690

TCDD
antiestrogenic effects 462
in bald eagle eggs 247
tissue levels in chicken 664
TCPM, distribution in mussel and fish, Baltic Sea 411
Teratogen, chromium in chicken 281
Tires, pesticide levels 684
TNT, degradation by soil bacterium 702
Triazine, TNT bacterial degradation 702
Trinitrotoluene, degradation by bacterium 702
Tributyltin, malnutrition and pregnancy failure 224

Uranine, dissipation, Hawaii, USA 426

Vanadium
in cigarettes 276
in *Sinapis alba* 763
Vinyl chloride, lymphocytosis disorder 583

Water
agrochemicals and mercury effects on tadpoles 154
ammonia toxicity to *Ceriodaphnia* 116
antimony chloride effects on tilapia 129
barnacles as biomonitor 608
benzaldehyde partitioning properties 1
bolero effect on gill apparatus 162
Cd uptake, metallothionein in carp 794
chlorpyrifos toxicity to *Artemia* 779
conductivity and fish 645
Cu and lindane effect on clam 397
Cu oxidative stress 623
Cu uptake and excretion in crayfish 65
Cr effect on antioxidant enzymes 384
Daphnia growth with image analysis 355
diazinon in lagoon, Iran 477
effluent toxicity to fish phagocytes 747
esterases as biomarker for OP exposure 564
estrogenic effects bisphenol *Dalphnia* 143
heavy metals and reproductive success of crabs 548
heavy metals in sediment, Korea 505
heavy metals in wastewater, China 261
heavy metals and sorbtion by plants 497
Hg in fish, Colombia 182
indium chloride effects on tilapia 123
indole toxicity prediction 591
industrial pollution, Nigeria 269
lobster size and metal content, Kuwait 175
metal distribution, Mexico 616
MFO in fish related to metals 378
Mfu-galactoside activity in trout RBC 787
molinate effects on phytoplankton 534
MTBE in private wells, NY, USA 484
naphthalene used by natural bacteria 370
naphthoquinone structure - toxicity to *Tetrahymena* 405
nitrite cell proliferation, polyamine in mice 801
nonylphenol polyethoxylate degradation 489
PAH and organochlorines in sediment, Mexico 80
PAH in limpet, Canary Islands 72
PAH toxicity to crustacea 637
pesticide residues, Greece 255
petroleum effect on flounder 771
plutonium, Hanford site, USA 755
propanil effect on nontarget organisms 169
radium, Michigan, USA 723
river seepage water quality, New Zealand 339
sediment effects on fish, Zambia 96
sediment effects on sturgeon, Baku, Azertaijan 512

Water (cont.)
sediment toxicity to amphipod, Chile 363
sediment toxicity to parasitic fauna, Canada 88
sensitivity of 10 species to crude oil 102
soil water phosphorus 325
toxicity of pulp mill effluent 739
TCPM in mussel and fish, Baltic Sea 411

Zinc
in beetles 51
in mink and otter liver 600
in sewage sludge soil 347
